

ADVANCED MASTERCLASS

Systemic Wisdom and Constellations with Horses

MARCH 24 – 28 | 2025

MANORHOEVE BELGIUM

A misty landscape with rolling hills and several horses grazing in a field. The scene is bathed in a warm, golden light, suggesting sunrise or sunset. The horses are scattered across the field, some standing and some grazing. The background features soft, hazy hills under a pale sky.

Refine and deepen your systemic intuition
and expand your range of systemic and constellation work,
learning from the wisest systemic teachers: horses.

FAMILY AND ORGANIZATIONAL CONSTELLATION WORK, GUIDED AND ENLIGHTENED BY THE HERD.

Family systems and all man-made systems (organizations, not for profit initiatives, schools, communities, etc.) are complex living organisms, with mostly invisible dynamics and entanglements.

Our clients – whether they are individual coaching clients, or professional teams or organizations - are often burdened or stuck without fully understanding why. The different systems that they are a part of are always at play and they are not able to discern between the symptoms and the deeper dynamics.

The web of countless invisible interconnections is difficult to navigate and working against the systemic dynamics will result in correcting mechanisms, which we try to fight.

How can we see more clearly what is really happening and start working with the system, rather than against it?

Horses are wise teachers. As prey animals and members of the herd they are masters in sensing the system and are fully living in the present moment. They are highly sensitive and loyal. With utmost precision and without any judgement they disclose where the systemic tension is in the relevant system. And they wait patiently until we are ready to make a move.

In this highly experiential 4-day retreat (from Monday lunch until Friday lunch) we will take you on a journey to refine and deepen your systemic intuition by seeing it reflected back to you by the horses. We are expanding your systemic toolkit and your range of constellation modalities, by constellating in the meadow (or indoor arena) to experience how the horses make visible what needs to be seen and how they confirm every healing movement or systemic intervention.

This advanced masterclass is designed for coaches, facilitators, consultants and leaders who already have a basic knowledge in systemic and/or constellation work. If you haven't studied with one of us before, please set up an intake call so that we get an indication of your systemic journey so far.

There is no prerequisite to have any experience with horses or to have access to horses. Most of you will probably not actively work with horses in the future.

The horses are our teachers in this program, as they will template a refined and heightened systemic awareness so that this masterclass becomes an embodied experience.
